

FOR IMMEDIATE RELEASE:

The International Technology and Engineering Educators Association's STEM*Center for Teaching and Learning (STEM*CTL) announces collaboration at the Technology Student Association's Annual National Conference in Baltimore, Maryland.

The STEMCTL will provide ½ day EbDLabs™ at the National Conference to highlight middle and high school Engineering byDesign™ course offerings. These ½ day EbDLabs™ will be hands-on workshops that will provide an orientation for teachers on the Courses. The session will be hands-on, minds-on, preparing teachers with the fundamentals necessary to understand the basics for implementing a standards-based course. Teachers will receive an overview of the course as well as experience how to use EbD™ lesson plans at the high school level to engage students of all ability levels. Participants will get a certificate for 5 professional development hours.

The EbDLabs™ will be facilitated by Dan Caron, EbD Professional Development Associate/Specialist from New Hampshire.

Cost for each EbDLab™

ITEEA Members = \$50

Non-ITEEA Members = \$75 (Non-members can join ITEEA for \$65 and receive special Members Only pricing – go to the URL below and register as a non-member to get this SPECIAL OFFER)
